E-3

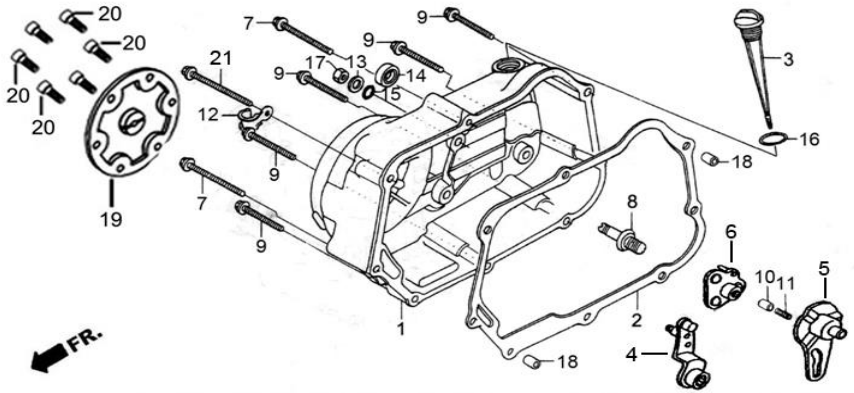

CAMSHAFT / VALVE

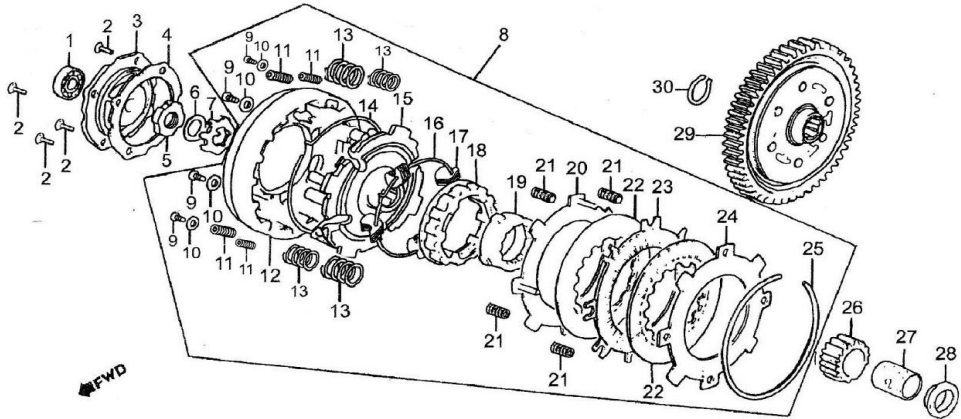

NC90 ELECTRIC

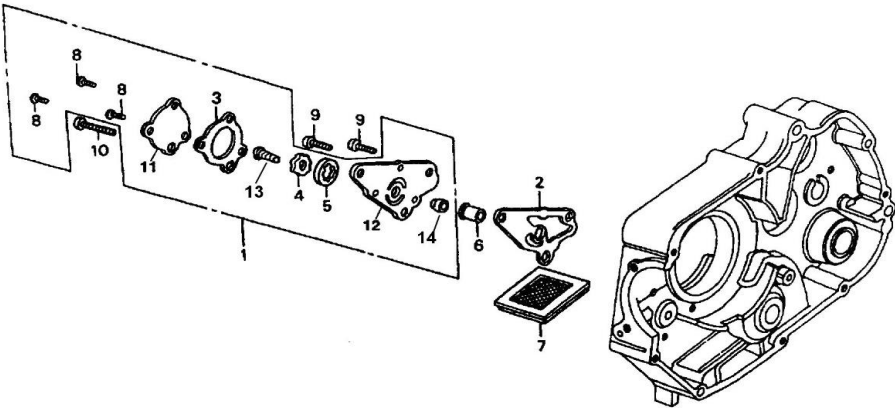

The diagram illustrates the exploded view of a camshaft and valve assembly. It shows two identical valve assemblies, one for the intake (IN.) and one for the exhaust (EX.) valve. Each assembly consists of a camshaft (2) with a cam follower (3) and a rocker arm (4). The rocker arm is connected to a valve stem (5) which has a seal (1) and a spring (7). The spring is held in place by a spring seat (10) and a spring retainer (9). The retainer is secured by a cotter pin (11). The valve stem is also secured by a cotter pin (11). The diagram includes a 'REF.' arrow pointing to the left.
